

Dear Colleagues!

The Angiopicture medical group has existed since November 2013, comprising cardiovascular, radio endovascular and general surgeons, cardiologists, radiation diagnosticians, and intensivists.

The group has held 6 conferences in Russia, in 2018, 2019, 2021, 2022, 2023, and 2024 (350, 450, 638, 730, 800, 1100 in-person participants, respectively), 4 hybrid symposia, in 2020, 2021, and 2023 (more than 5000 viewings on the channel), and more than 20 different master classes.

On September 20-21, 2024, we are holding the autumn summit “**Angiopicture-2024 in Yerevan**” at the Courtyard Marriott Yerevan Conference Center (5 Teryan St., Yerevan, Armenia).

A two-day conference, in-person format, including lectures, round tables, breakout sessions, live broadcasts from operating rooms, and master classes. Simultaneous translation from Russian into English, from English into Russian. Continuous broadcast of the event on the Angiopicture Youtube channel in Russian and English. The participation of specialists in the treatment of cardiovascular diseases from Russia, Armenia, Georgia, Kazakhstan, Uzbekistan, and the USA is planned.

The choice of main topics and the involvement of the most competent group members as moderators and speakers is determined by the activity within the group, which traditionally makes the program interesting and rich. A predominantly **discussion format** is planned at the summit, with consideration of the most pressing and controversial issues in the treatment of heart and blood vessel pathologies, as well as broadcasting demonstrative interventions from operating rooms.

Currently, for manufacturers and suppliers of medical equipment, consumables and medicines we offer the main SPONSORSHIP PACKAGES

Sponsorship packages	General Sponsor	Partner	Sponsor
Cost of participation, AMD	3,500,000.00	2,200,000.00	1,500,000.00
